July 10, 2006

Dear Colleague,

For the eighth year **Hamilton County's Local Emergency Planning Committee (LEPC)** will be presenting a conference which promises to be the best one yet. This year the conference will be held on **August 23 and 24**.

The **"Focus on Emergency Planning 2006"** conference is targeted toward dedicated people like yourself, those responsible for developing and implementing emergency response plans to protect the people in your community. As you can tell by the enclosed registration form and program agenda, the topics are important and the **presenters** of each session are recognized as **experts in their field**.

Prior to the seminar, there will be an opportunity for emergency response personnel to receive hands-on training in a **2-day Highway Cargo Tank Specialist** class on **August 21 and 22**. The trainer also uses a wide variety of models and props for instruction. **This class is limited to the first 50 who register**. Additional details can be found on the enclosed registration form.

An exhibition area will also be provided during the 2-day conference where vendors of emergency response services and equipment will be available to answer any questions you may have. Lunches during the pre-conference training class and during the conference itself are **free**. All you have to do is register.

It would be rare that you would ever find an opportunity again to gain so much information and training first-hand from experts in their field in a single conference.

**This year's conference and the special training class are again being presented FREE of CHARGE by the LEPC with grant assistance provided by the Tennessee Emergency Management Agency.**

**Please don't miss this important event.** Reserve your place in this exciting conference now by sending or faxing your completed registration to the address shown on the enclosed brochure. Or you may call **(423) 209-6900**.

**Conference attendance is limited to the first 200 registering.**

**We Look Forward to Seeing You in Chattanooga in August!!**

David Darnell, BASF Corporation

**HCLEPC Conference Sub-Committee Chair**
